## Regular Meeting Reid Hill W.I.

Sixteen members and one visitor answered roll call at the regular meeting of Reid Hill W.I. held Thursday, June 11, at the home of Mrs. Ross Walker, with Mrs. J. C. MacMillan and Mrs. F. J. Mensinger as assistant hostesses.

Mrs. Earl Deal was in the chair and conducted the meeting, assisted by the secretary, Mrs. Fred Schuler. The constituency conference to be held at Champion on Wednesday, June 17, was discussed and plans made for some of the members to attend. Mrs. John French was named to represent Reid Hill at this conference.

A splendid paper on the care and raising of African violets prepared and given by Mrs. E. G. McPherson proved highly interesting and provided much information on this much-loved house-plant. Mrs. J. French presented a short, but much appreciated paper on gardening and gave some very useful pointers.

Mrs. Deal, who had attended the provincial convention at Edmonton, as delegate from this branch, brought back a detailed and very fine report, which was enjoyed by all.

At the conclusion of the business session a white elephant sale was held of articles brought by the members for roll call. Mrs. R. Harold proved a most capable auctioneer and more than \$14 was realized from the sale.

Miss L. Fair of Calgary, formerly of Vulcan was a guest and renewed old acquaintances.

The serving of a dainty lunch concluded the afternoon. No meeting will be held in July and the next meeting in August will be at the home of Mrs. Sales.

Water-borne cargo through Canada's major seaports increased by more than 400,000 tons in 1958, totalling more than 47,000,000 tons.

The 1959 Canadian construction boom is reflected in the record sales of the clay products industry which last year amounted to \$41,700,000, an all-time high.

## Get First League Win

## Elks Still In League Cellar But Future Looks Brighter

First of all, baseball's Bearded One, "Sweede" Robertson, is back to just plain coach Swede Robertson once more. It all began early in the season when his boys got off to a losing start in league play and he promised to throw out the razor until the Elks won a game.

This promise he kept. And his club kept losing games, and the beard kept growing. By the time a win broke the deadlock on June 12, Swede still probably could not have made a go of it on a camel in Arabia but his facial display would have stood up to any veteran of the old time stooking crews.

This first victory came against Milo in exhibition ball and the boys made it a solid 12-6 win.

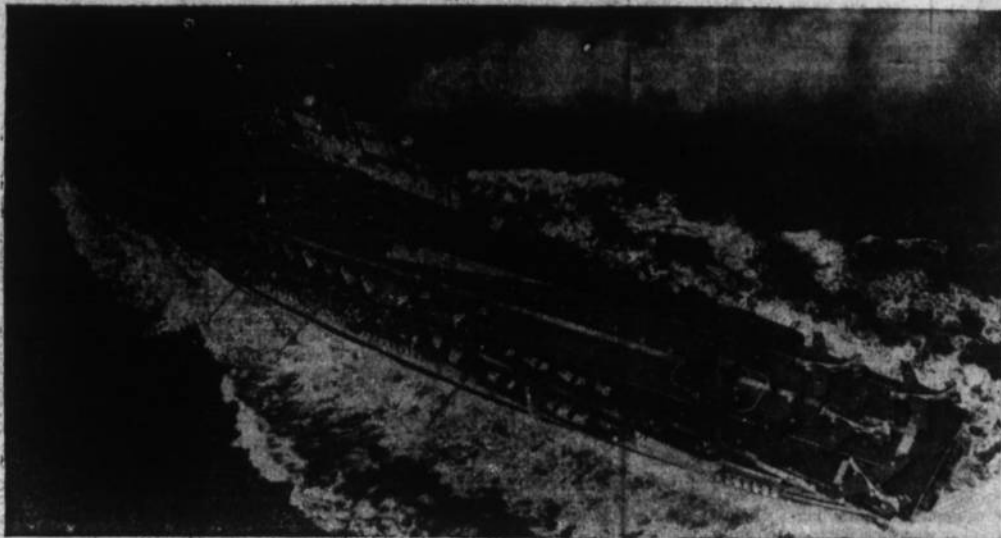

Better things happened last Sunday in league play against Carmangay at the local diamond when the Elks paid off with two runs in a 10th inning drive to come out 5-3 winners.

At the end of six innings the score was 1-0 favoring Carmangay.

## THE WEATHER

Hail storms were reported in the Ensign-Brant and Milo districts last Saturday. Crops were damaged but are expected to recover. Windows were broken in some farm homes.

In general, crops are making good progress although some wireworm damage has been reported. It was hot and dry over the week-end in most parts of the district with cooler weather forecast for the middle part of this week.

AN AERIAL VIEW of Britain's biggest warship, the 43,000-ton aircraft carrier H.M.S. Eagle steaming in the English Channel off Portland Bill with Her Majesty the Queen and the Prince of Wales on board.

The Prince accompanied the Queen on her first visit to H.M.S. Eagle since she launched the ship

at Belfast in 1946. After going on board the Queen inspected the ship's company on the flight deck and toured the ship, visiting the living accommodation, workshops, galley and dining halls, and watched a flying display by squadrons of Fleet Air Arm aircraft before leaving the ship after four hours at sea.

## 91 Calves Entered

## Calf Show, Sale Saturday

The second annual Calf Show and Sale, organized by the Vulcan 4-H Calf Club Association, will be held at the arena on Saturday, June 20.

To the many boys and girls who have done preparatory work through 4-H Club meetings, selecting and raising their stock, it will be an achievement day as one of their entries will be chosen grand champion by R. Church, Judge of the show. Also up for competition will be other trophies to be given by the president of donating clubs.

It will be no holiday for the farm young people in the show for the weighing of stock begins at 7:00 a.m. Saturday. Judging starts at 9:00 and goes through till lunch at noon. The heifer classes are judged at 1:00 p.m. and trophy presentations take place at 1:30. Nanton Auctioneer, Warren Coopey enters the picture at this time and will call the sale which will conclude the day.

Ages of contestants run from 8 years up to 16 and 17-year-old boys and girls who come from the 4-H Clubs of surrounding districts to make up the parent body.

President is Lee Richardson, vice-president is Eric Thorpe, and Ralph Trimmer, Claresholm D.A., is secretary-treasurer.

The first show and sale met with good success in 1958 and with 82 steers and nine heifers appearing this year, an increased interest and attendance is expected this Saturday.

Generation of electrical energy in Canada in 1958 increased 7.2 per cent to 96,743,000,000 kilowatt hours as against 1957.

Americans visited Canada in fewer numbers in 1959 than they did in 1958 and reduced their spending by 5 per cent, the expenditure being \$309,000,000.

## Holiday Precautions

Canada's annual theft loss is more than \$1,500,000 — a large portion of it represented by home burglaries.

Each year the number of thefts increases sharply during vacation months when many home owners are away, according to the All Canada Insurance Federation.

Officials of the Federation, which represents more than 250 fire, automobile and casualty insurance companies, offer the following precautions as a guard against home burglaries this summer.

(1) Cancel all milk and newspaper deliveries; old newspapers on the doorstep are a certain indication of an empty house.

(2) Arrange to have the lawn mowed periodically.

(3) Always inform your local police station that you will be away so that police can check your home periodically.

(4) Ask a friend or neighbor to visit the house occasionally to see that all is in order.

(5) Valuable jewelry and silverware should be left with a bank for safekeeping.

(6) Do not leave lights burning, during daylight hours they indicate an empty house.

(7) Report any evidence of theft or break-in promptly; even if nothing is taken, the information is of value to the police.

## With The District Agriculturist

The season for working summer fallow is very close, and in some instances farmers have already begun this operation. There are three factors to consider in regard to summer fallowing; they are: (1) To maintain a trash cover to protect the soil from wind erosion. (2) To effectively control weeds. (3) To conserve moisture.

The many incidences of soil drifting this past spring bears out the recognized fact that summer fallow operations must be such as to keep as much stubble and trash on the surface as possible. Subsurface tillage, such as can be done with blade and cultivator type implements is the best method to use in order to accomplish this. Disk implements tend to reduce the trash. Deliberate trash reduction is only justified when the stubble is extremely heavy and may interfere with subsequent fallow operations and seeding operations the following spring. Where a disk implement has been used for the first operation on a light stubble, subsurface implements can be used to lift some of the trash to the surface again. A rod weeder is a good machine for this purpose.

Controlling weeds, particularly perennials in summer fallow is a very real problem. The basis of controlling perennial weeds by cultivation is to starve them to death. When the plant is cut off below ground the root sends up a new shoot. If these new plants are repeatedly cut off it is impossible

for the plants to manufacture enough food to maintain the root, as it is the above ground part of the plant that manufactures the food. By repeatedly destroying the top growth the plant is gradually weakened until it dies. This of course requires many tillage operations, which is undesirable from the standpoint of maintaining trash cover and a soil structure that will prevent drifting. Several of the tillage operations can be eliminated by the use of 24D weed spray on the summerfallow. The spraying should be followed in about 2 weeks with a tillage operation. Canada Thistle in particular can be effectively controlled by this procedure.

In regard to moisture conservation, tillage operations should not be deeper than is necessary to control weeds. Moisture loss is greatest to the depth of cultivation. The maintenance of a good trash cover will also help to conserve moisture as it tends to shade the soil to a certain extent.

Several incidences of cutworms have been reported this spring. If this insect is a problem it may be wise to give some special considerations to the summerfallow operations. If the Pale Western Cutworm is prevalent weeds on fallow should be controlled before July 15th and the field left undisturbed until Aug. 15. This will allow the surface to become crusty and prevent the moths from laying their eggs there. In the case of the Red Backed Cutworm, they destroy green growth even during August since this is preferred for egg laying.

## Letters to the Editor

To the Editor of The Advocate, Dear Sir:

We have just received a letter from our village council secretary, concerning DOGS. It seems they've been damaging garden and barking at night.

Certainly, it's heart breaking to spend hours on a lawn or garden, only to have a dog trample down their handiwork. But, what about fences?

And barking!! — If a dog is kept tied up (under control at all times and restrained from barking at night) surely it is entitled to the privilege of barking. What is a dog owner to do?

It seems the only alternative between roaming at large and barking (tied up) is to have it impounded, but what happens to our children, who must go without the companionship and love of a dog, just to satisfy those who are hard up for something better to complain about.

It just makes one wonder if the next complaint won't be noisy, hard-playing youngsters (as only they can be) running into a "precious" yard to retrieve a poorly aimed ball.

Simply,  
A Mother  
and dog owner.  
Champion, Alta.

## A SECOND LOOK AT FARM CASH INCOME IN 1958

Searle Grain Co.)  
Generalizations can be misleading. That is why the 1958 cash income figures for all Canada, released recently and given some prominence, may give a wrong impression so far as they relate to the prairie grain farmer. On the surface, the fact that the cash income of all Canadian farmers is some eight per cent above that of 1957 and very close to the record of 2.9 billion dollars reached in 1952, sounds very encouraging and to some extent it is.

In Western Canada, however, with little difference as between the three Prairie Provinces, that portion of the 1958 cash income derived from the sale of grain, hay and seed, was actually 18 per cent lower when compared to the 1956 returns. At the same time, the portion derived from the sale of livestock and poultry was 46 per cent higher. Thus while the position of the rancher or mixed farmer has improved, that of the straight grain grower has deteriorated. It is true that the quantity of grain delivered was somewhat less in 1958 than in 1956 but prices have been generally lower too. All this is in contrast to the situation in Ontario where the cash income from practically all farm products, grains included, was higher in 1958 than in 1956. Still other differences exist in other provinces.

Those who will point to the above figures and suggest that the obvious answer is for more prairie farmers to diversify or engage in mixed farming are giving voice to a popular belief that in a great many cases has no foundation in fact. Many of those now producing grains for sale commercially are so placed geographically that they have little alternative but to continue raising grain, more particularly wheat. Not only this, but the scale of their farming operations, both from the standpoint of land and equipment, is such that if anyone can produce wheat cheaply and efficiently, it is they. This, if Canada is to maintain her position as a low-cost producer of grain, is important.

## Babe Ruth Baseball

The Champion nine finished up a very successful Babe Ruth season here last Thursday night, when they trounced the visiting Milo aggregation by the score of 16-6. They out played and out hit the visitors by a very noticeable margin. It was the ninth game for the locals this season, and they have come out on top in eight of those contests.

Leading the locals at the plate was Schneider with three big hits. Rounding out the 10 hit attack displayed by Champion were Bjornson and Keenan with two hits each, followed by Ohlheiser, Rhodes and Jordan with one hit each. For Milo, the hits were evenly divided between Brown, Phillips, Nelson, Fernby and Gore. Eash picked up a single hit.

Ohlheiser went the distance for the locals in gaining the win. He managed four strikeouts while walking three. Milo had a string of pitchers numbering six. They were the starter Clemmon followed by Will, Gore, Nelson, Phillips and Ivers. The loss was taken by the starter Clemmon. Milo pitchers managed 3 strikeouts and walked 12 Champion batsmen.

## Linescore:—

Milo	6	7	5
Champion	16	10	2

The playoffs begin on Tuesday, June 16, with Vulcan playing Mossleigh and Champion taking on the fourth place finisher, either Milo or Carmangay. With Champion and Vulcan finishing in a deadlock for first place, each with a eight win, one loss record, the two coaches agreed who would play the third place team, and who would play the fourth team. According to the schedule, there was one game left to play between these two clubs, but time was not available for this contest. The above semi-finals will be a best of three affair, with Vulcan and Champion getting the opening games.

Don't forget to get out and back your local team, as Babe Ruth Baseball for this year is quickly coming to a close.

Raspberry jam is one of the easiest to make, as well as the most delicious, so why not try this very successful recipe?

**RASPBERRY JAM**  
4 cups prepared fruit (about 2 quarts ripe raspberries)  
6½ cups (2½ lbs.) sugar  
½ bottle Certo fruit pectin

To prepare fruit, crush completely, one layer at a time, about 2 quarts fully ripe raspberries. (If desired, sieve half of pulp to remove some of the seeds.) Measure 4 cups into a very large saucepan.

To make your jam. To the measured fruit in saucepan, add 4½ cups sugar. Mix well. Place over high heat, bring to a full rolling boil. Boil hard 1 minute, stirring constantly. Remove from heat, stir in Certo at once. Skim off foam with metal spoon. Stir and skim for 5 minutes to cool slightly, to prevent floating fruit. Ladle into glasses. Cover at once with ½ inch hot paraffin. Makes about 10 medium glasses.

When we mention "pectin" many women say "I don't really understand what it is". Well, pectin is simply the jelling substance found in all fruits in varying amounts. Certo is pectin extracted from fruits rich in this natural substance, then refined, concentrated and performance-controlled. So naturally, when you use Certo and follow the tested Certo recipes, your jam and jelly always sets perfectly!

**Preserving Pointers:** It's a good idea to temper all new glass jars before using, in order to prevent breaking. Simply place the jars on a rack in a pan, cover with cold water, and then heat gradually to the boiling point.

Keep canned fruits in a cool dark place. The darkness protects the color, the coolness helps preserve the flavor.

Keep an eye out for my next column which will have another recipe. By the way, if you have any problems with your jam and jelly making, I wish you'd let me know. I may be able to help you.

As a "Thank You" to all our customers, we will have the most up-to-date and largest garage in Southern Alberta outside of any city, to give you the best sales and service more efficiently.

According to the latest figures of motor lists there are more people in the Vulcan district driving Dodge cars than any other make. In the meantime we have become so attached to Vulcan and its wonderful people that we are digging our roots right in and are here to stay.

## THE BALER WITH SEALED BEARINGS THAT NEVER NEED GREASING

That's right, the famous Massey-Ferguson No. 3 Baler  
eliminates that messy, time-consuming chore every  
morning and noon. Think of the extra bales you'll have  
in the time you save.

And . . . every time a bale is tied with the MF No. 3, it's  
tied for good. No more "skips" due to sloppy knotting.  
In every way, the No. 3 Baler can be counted on to give  
you more bales, better bales, and for a lot of extra years.

Wednesday morning, June 10, was a big morning in the lives of several "little people" of our district. About a dozen little boys and girls arrived at school to spend the day. The majority decided that they liked what went on and promised to be back to stay when September rolls around.

The school picnic, sponsored by the Home and School Association, was held on the school grounds, Thursday afternoon, June 11. Two softball games were played and numerous races were run. Novelty races were the feature of the day.

Following the business meeting, the afternoon was highlighted by a very interesting and informative talk on the "Home Freezer" by Miss A. Randle, District Home Economist. Miss Randle also displayed many interesting souvenirs brought back from her recent trip to Hawaii.

A lovely lunch was then served

## District News

### MAJORVILLE

Mr. and Mrs. Elmer Pearson of Michigan, U.S., was a recent guest for a few days at the home of the former's brother-in-law and sister, Mr. and Mrs. Fred Bertschy.

Mr. and Mrs. Fred Bertschy were visitors to Calgary on Tuesday.

Spotty showers covered the district during the week. Just north and south of the post office there was a heavy shower that left water running everywhere while other parts report just a sprinkle to 1/4 inch. A good general rain is needed as fields are drying from the high hot winds of the past week. On Friday afternoon the temperature was over 80. Summer fallowing is general now and weeds are growing as only weeds do. Lillacs are showing the result of either the late frost or dry conditions, at least they are not so heavy with bloom as usually.

Mr. and Mrs. Albert Bushell, former residents of the district, now of Calgary, were visitors at the home of Mrs. Francis on Sunday.

Bert Clemmons and Junior Bertschy went to Lethbridge on Wednesday to attend a Masonic banquet.

Lawrence Smith, accompanied by several buddies went to Calgary on Sunday for the reserve army inspection.

Mr. and Mrs. Fred Bertschy went to Vulcan on Friday where Fred took some chiropractic treatments.

Mr. and Mrs. Gilbert Vooyos and family went to Great Falls, Mont., to spend the farmers' weekend holiday.

Farmers' day for most of the farmers around here was just another work day. Children had a holiday from school and a few attended the race meet at the lake.

### Lutheran W.M.F. Meeting

The Milo-Queenstown Lutheran W.M.F. held their June meeting at the home of Mrs. Lewis Greaves. Despite the cool showery after-

noon, 12 members and one visitor attended. A hymn, "Oh God Our Help In Ages Past," followed by "The Lord's Prayer" in unison, opened the meeting.

A cheque for \$10 was received from the Queenstown W.L. This is to be used in repair work to the Lutheran cemetery. The coming convention at Moose Jaw, Sask., was discussed and Mrs. Jack Deitz and Mrs. Freda Printice were appointed as delegates to attend. If any member who was not at the meeting would also care to attend, they are asked to phone Mrs. Deitz as soon as possible. Plans for catering to the wedding reception of Vern Maddoner and Marilyn Thompson were also completed. Mrs. Printice read the news letter from the cradle roll department of the W.M.F.

Pastor Foster conducted the devotional part of the meeting. The next meeting will take the form of a picnic at the Lake McGregor kitchen if the weather is favorable, otherwise members will be informed by phone as to arrangements.

Mrs. Hugh Winch was assistant hostess and with the hostess served a lovely afternoon lunch.

January sales of chain stores in Canada rose 12.6 per cent to a healthy \$238,400,000.

### QUEENSTOWN

Penny Marsh, infant daughter of Mr. and Mrs. Tommy Marsh was a patient in Vulcan Hospital for a few days last week.

Mr. and Mrs. Don Yull of Calgary attended the Race Meet at Lake McGregor last weekend and were also guests of Mr. and Mrs. O. Lahd.

Mr. and Mrs. Eddie Kingsmith and family motored down from Calgary on Friday evening and attended the Saturday races, also visiting relatives in the district, and being guests at Eddie's mother's home while here.

Mrs. Conklin's sister and her husband and family visited at the Conklin home over the weekend, also accompanying them to the Race Meet.

Weekend guests at the J. McLaughlin home were Mr. and Mrs. Splend of Cluny, the Hulverson family of Taber and also Barbara Anderson of Calgary.

Mr. and Mrs. Ron Fetkenher and son visited with Mr. and Mrs.

Jack Bushell last weekend.

Mr. and Mrs. George McMorris and family motored to Edmonton last Friday to attend the Aberdeen Angus cattle sale. Mrs. McMorris planned to visit a sister while in the northern city.

Rev. Knight of Blackie held Communion and Baptismal Services in the Queenstown United Church last Sunday, at which time the two sons of Mr. and Mrs. Jack Long were christened the names of Timothy Long and Barry Long, and the son of Mr. and Mrs. Leonard Marks was christened the name of Rodney Marks. Mr. and Mrs. Ralph Armstrong and family and Mrs. Lily Long of Hussar were down for the christening. Mrs. Pal Nelson was also in attendance. Miss Audrey Burns spoke on Christian Education in the United Church. Miss Burns is in charge of the girls' section which is the CGIT and Explorer Groups in the province.

A storm swept through the district late Saturday afternoon, bringing wind, hail and rain in the district. The storm was very narrow, at Martin Bojes one and a half inches of precipitation fell and only one-half an inch in the Hamlet, only a little north of the hamlet was left dry. Crops were not far enough advanced to do any damage and moisture at this time is always gratefully received.

Mr. and Mrs. Wray McCallum returned home from the Coast on Thursday of last week. They flew out the beginning of the week to attend the funeral of the late Mr. Heglund. Mr. and Mrs. Stanley Hagg cared for the children during their absence.

Just a moment, now, you who say, "We are going to such-and-such city to-day or to-morrow. We shall stay there a year doing business and make a profit!" How do you know what will happen even to-morrow? What, after all, is your life? It is like a puff of smoke visible for a little while and then dissolving into thin air. Your remarks should be prefaced with, "If it is the Lord's will, we shall still be alive and will do so-and-so." As it is you get a certain pride in yourself in planning your future with such confidence. That sort of pride is all wrong.

No doubt you agree with the above in theory. Well, remember that if a man knows what is right and fails to do it, his failure is real sin.

## A CAR FOR A QUEEN

Little Ann Turnes admires the rear compartment of the Cadillac Fleetwood Sedan which has been adapted and specially fitted for the Royal Tour of Queen Elizabeth and Prince Philip. Two individually powered rear seats, upholstered in silver grey McLaughlin Carriage cloth, are features of the rear compartment of the car. Matching cushions and a lap rug of the same material — the latter carrying the Royal Crest embroidered in red gold — as well as grey mouton floor covering and individual hassocks, complete the decor of the rear

compartment. The car is also specially equipped with twin air conditioning units, powered sliding sunshine roof panel and a remote control radio knob at the Queen's right hand. Shown top, left, is a rear view of the exterior of the Royal Cadillac, which illustrates the detachable bubble of optically perfect plexiglass. It can be removed or installed in minutes. Lower left shows the car emerging from one of the RCAF's C-119 "Flying Boxcars" which will transport it to many Canadian points and to Chicago during the Royal Tour.
